

Rahim Ullah

Full Stack Mobile Developer

Flutter · Android · Kotlin · Jetpack Compose · Node.js · Laravel

Founder of SparkDevX

Islamabad, Pakistan · Available worldwide

info@rahimdev.net · rahimdev.net · github.com/rahimdev4 · linkedin.com/in/rahimdev-/

PROFESSIONAL SUMMARY

I build mobile applications and the backend systems that support them, using Flutter and native Android alongside Laravel and Node.js. My work connects user interfaces, APIs, content management, and monetization. I take projects through integration, testing, client review, and launch preparation, drawing on freelance experience in app development, testing, and publishing.

TECHNICAL SKILLS

Mobile development: Flutter, Dart, Android, Kotlin, Java, Jetpack Compose

Architecture and state management: Clean Architecture, MVVM, Riverpod, Offline synchronization

Backend and APIs: Node.js, Express.js, Laravel, REST APIs, Admin systems

Databases and cloud services: PostgreSQL, MySQL, MongoDB, Drift / SQLite, Firebase, Supabase, Cloudflare Stream

Payments and monetization: RevenueCat, Stripe, In-app subscriptions, Purchase restoration, ASO

Development and delivery tools: Git / GitHub, Android Studio, Xcode, VS Code, Google Play Console, TestFlight

PROFESSIONAL EXPERIENCE

Mobile App Developer

SparkDevX · 2023 to present · Islamabad, Pakistan · Remote

- Lead mobile development projects from requirements and scope through working builds, client review, and handover.
- Build Flutter and native Android applications with supporting APIs and admin systems using Laravel and Node.js.
- Integrate product features, test the complete workflow, and prepare agreed deliverables for store submission.

Freelance App Developer & Tester

Fiverr & direct clients · Remote · Worldwide

- Develop Flutter and native Android apps for freelance clients, including API integrations and feature updates.
- Test mobile app functionality and interfaces, document reproducible issues, and review fixes with clients.
- Prepare store listings, coordinate closed testing, and support Google Play and App Store submissions.
- Received 500+ reviews on Fiverr across freelance services.

SELECTED PROJECTS

Shalom Artist

Android & backend development

A music streaming app with a Laravel content administration system.

- Built native Android audio streaming, background playback, offline downloads, and playlists.
- Developed the Laravel admin panel for music, members, subscriptions, and notifications; handled testing and Google Play publishing.

Android · Java · Laravel · Firebase

Tikdating

Original native Android app & backend development

A social dating app combining profiles, short videos, and conversations.

- Built the Java/XML Android app with a vertical video feed, matching, messaging, and WebRTC calling.
- Developed Laravel APIs and administration for profiles, video content, and moderation, with Firebase authentication and notifications.

Android · Java · Laravel · Firebase · WebRTC

Caafihub

A pharmacy platform spanning web and mobile applications.

- The platform includes separate admin and wholesaler web applications, plus a Flutter retailer application.
- A Laravel backend is deployed on a VPS.

Flutter · Laravel

AJOracle · Ongoing

A mobile streaming platform project.

SELECTED PROJECTS (CONTINUED)

Vekzi

Founder, Product Designer & Full Stack Developer

An email outreach platform bringing leads, campaigns, and conversations into one workspace.

- Designed and built lead management, a guided campaign builder, reusable templates, and message personalization.
- Implemented a unified inbox, campaign analytics, and administration with a Next.js frontend and Express.js backend.

Next.js · TypeScript · Express.js · PostgreSQL · Redis

OPEN-SOURCE WORK

App Store Audit Skill

An open-source AI assistant skill for reviewing mobile apps against Apple App Store and Google Play requirements before submission. It helps identify review risks and organize corrective work; it does not guarantee approval.

[App Store Audit Skill on GitHub](#)

EDUCATION

Bachelor of Science in Computer Science

University of Malakand · 2022 to 2026

CONTACT
